WILDSWINKEL APP GUIDELINES

THE WILDSWINKEL SYSTEM EXPLAINED

DID YOU KNOW?

Our online platform is web and app-based and is available on all operating systems.

FIRST THINGS FIRST

Download the Wildswinkel App available for iOS, Android and Huawei. Click on the button that is relevant to your mobile device or simply scan the QR code with your smart device.

DIFFERENT TYPE AUCTIONS

The Wildswinkel platform provides you with 3 options to host your auction.

1. **Live Auction** - This is your traditional way of hosting an auction where the auctioneer closes the auction lot for lot with an audience. This method allows the bidder to bid online via live streaming in real-time or live on the floor at the auction. A countdown timer on the app indicates to the online bidder that final bids have to be placed before the auctioneer then closes the lot after the timer has run out.
2. **Livestream Auction** - Livestream auctions do not differ a lot from a Live Auction. There will be an auctioneer who still closes the auction lot for lot via Livestream, but no audience is involved at the auction. Bidding will only be done by telephone bidding or online bidding. The same principle for the countdown timer applies to a Livestream Auction.
3. **Timed Auction/Flash Sale** - This is purely an online auction. There is no auctioneer involved as it is a platform-based auction. Lots close in staggered intervals starting from a specific time and remain open for an undisclosed duration depending on the activity of each lot. There is a two-minute rule that applies. This simply means that when a bid is placed in the final two minutes before the lots closing time, the timer will extend by another 2 minutes to prevent bidders from losing out and to keep the bidding transparent and fair.

ONLINE AUCTION REGISTRATION PROCESS

The process to register online for any of the above-mentioned auction types remains the same. Simply create a user profile (one time only!) and click on 'Register to bid' for the relevant auction. You will receive a unique bidder number. Simply collect your bidder card from the registration table should you attend the auction. No paper, no scans, no waiting in line!

ADDITIONAL RULES OF AUCTION

1. INTRODUCTION

The Auctioneer's standard Rules of Auction will apply to all lots, unless in contradiction with any of the terms set out in these 'Additional Rules of the Auction'.

2. LIVE-ONLINE BIDDING (IF APPLICABLE)

The Auctioneer conducts the auction utilising technology where prospective Buyers are not required to physically attend the auction but can enter bids remotely utilising the Auctioneer's online platform. Consequently, a prospective bidder may enter bids against individuals who are physically present at the auction and vice versa. In light thereof the Owner/Seller, prospective Buyers and Buyers expressly takes note of and agree to the following:

- 2.1. The prospective Buyers and Buyers shall strictly observe the instructions from the independent auctioneer where bids are accepted from the attendees and online bidding platform.
- 2.2. The prospective Buyers and Buyers and/or its representatives, as the case may be, shall take reasonable steps to ensure that he or she is connected to the internet. It is advised not to utilise the internet if connectivity is poor and/or less than 4 megabits per second (Mbps) upload and download speed.
- 2.3. The prospective Buyers and Buyers shall take reasonable steps to ensure that the feed on the online platform is frequently refreshed where it does not do so automatically.
- 2.4. The prospective Buyers and Buyers and Owner/Sellers takes note and acknowledges that the auctioneer shall be entitled to close the online bidding for a particular lot prior to knocking down the hammer in order to take a final bid from the 'live attendees'. In the event where such bid was made and accepted, the auctioneer may, at its own discretion, reopen the online bidding for that lot to accept additional bids.
- 2.5. Once a bid is made it cannot be withdrawn.
- 2.6. Neither the Auctioneer, the Sellers' or the Auctioneer's representatives will be liable for any failure in connectivity or

- 2.7. software while using the online bidding platform. Neither the Auctioneer, the Owner / Seller or the Auctioneer's representatives accept any responsibility for any Internet interruption of connection or failure of software that leads to the bidder being disconnected from the live auction, irrespective of whose connection is interrupted. The Auctioneer accepts no responsibility for the loss of potential purchases, if a bid is not recorded due to the interruption of the bidder or if the online system goes offline during the auction process.

3. TIMED AUCTION (IF APPLICABLE)

- 3.1. The provisions of the 'Timed Auction Rules' applies to all lots sold on the 'Timed Auction' and will prevail when in contradiction with the 'Rules of Auction' relating to a lot sold on the 'Timed Auction'.
- 3.2. All goods sold on the Timed Auction will be subject to a reserve price, which reserve price may be higher than the minimum starting price.
- 3.3. The prospective Buyers and Buyers and/or its representatives, as the case may be, shall take reasonable steps to ensure that he or she is connected to the internet. It is advised not to utilize the internet if connectivity is poor and/or less than 4 megabits per second (Mbps) upload and download speed.
- 3.4. In respect of lots auctioned on the Timed Auction, the following additional terms and conditions will apply:
 - 3.4.1. Subject to paragraph 3.4.2 below, lots on the timed auction will close as per the specified date and time per lot as advertised on the online bidding platform, subject to an Extension Period. The closing of lots may be staggered.
 - 3.4.2. In the event where bidding on a lot will close and a bid is received within two (2) minutes of the published closing time, the time to enter a bid shall be automatically extended for an additional period, which period is customarily two (2) minutes, but may vary from time to time (the "Extension Period").
 - 3.4.3. A lot will not close if a bid is received during an Extension Period and shall automatically be extended for a further Extension Period. A lot will only close if a final bid on the lot stands alone for a period equal to the Extension Period. The lot will only close if a final bid on the lot is received and

- 3.4.4. stands alone for a period equal to the Extension Period. The "fall of the hammer" on a lot for the purposes of the timed auction is defined as the date and closing time published on the online bidding platform and/or the Seller's/Auctioneer's public websites, alternatively at the date and time a final bid on a lot stands alone for a period equal to the Extension Period, whichever occurs last.
- 3.4.5. All lots on sale on the timed auction will have a minimum starting bid price which will be indicated on the online bidding platform. Any bid above the minimum starting bid price will not necessarily be successful as the lot may be subject to a reserve price. Should the reserve price not be met, the lot will not be sold and shall be marked to be 'Subject to Confirmation (STC)'. Should the aforementioned occur it is advised to make contact with the Auctioneer as soon as possible to obtain instructions from the Owner/Seller to explore the viability of entering a transaction. This does not create any right of refusal nor does it impose an obligation on the Owner/Seller or the Auctioneer to enter any transaction.
- 3.4.6. The minimum bidding increment may vary per lot but is specified on the online bidding platform.
- 3.4.7. Once a bid is made it cannot be withdrawn.
- 3.4.8. Neither the Auctioneer, the Sellers' or the Auctioneer's representatives will be liable for any failure in connectivity or software while using the online bidding platform.
- 3.4.9. Neither the Auctioneer, the Sellers or the Auctioneer or Sellers' representatives will be liable for software failure of any nature.
